# OECD Outreach Mission to Japan

## Overview

The Organisation for Economic Co-operation and Development ([OECD](#)) is an international organisation comprised of 38 member countries that works to build better policies for better lives.

Our mission is to promote policies that will improve the economic and social well-being of people around the world. Together with governments, policy makers and citizens, we work on establishing evidence-based international standards, and finding solutions to a range of social, economic and environmental challenges. From improving economic performance and creating jobs to fostering strong education and fighting international tax evasion, we provide a unique forum and knowledge hub for data and analysis, exchange of experiences, best-practice sharing, and advice on public policies and international standard-setting.

## Career Opportunities

The OECD seeks to recruit **talented individuals with excellent academic achievements, professional credentials, and a successful record of demonstrated performance and results**. Candidates from different backgrounds are welcome to apply as we seek to broaden and enrich our **knowledge base and staff diversity**. Opportunities are available in Policy Research, Analysis and Advice as well as in Corporate Management and Administration.

## Policy Research, Analysis and Advice

Artificial Intelligence | Bribery and corruption | Climate | Competition | Corporate Governance Development | Digitalisation | Economy | Education and Skills | Employment | Energy | Environment | Finance | Gender and Diversity | Health Growth | Industry, Innovation and Entrepreneurship | Insurance and Pensions | International Migration | Investment | Public Governance | Regional Development | Regulatory Reform | Science and Technology | Statistics | Tax | Tourism | Trade and Agriculture | Transport

## Corporate Management & Administration
